MamiCamp - Mamikos/ Participant
May 2020 - June 2020, Online

I am one of the participants in the Bootcamp Backend Developer program organized by mamikos

Codeshera / Founder
June 2019 - PRESENT, Online

My goal is to make this start up, starting from many, I noticed graduates or even students majoring in informatics engineering and the like who can't coding, actually it can't, everyone can, just the problem triggers it, or can say its motivation lacking, a lot of things and factors, we take one for example the A lazy to learn coding because he thinks complicated coding, so what for, there are no goals, etc., just tag "program and code" program that has no more meaning, he I think after my program, what was it, where was it applied, etc. which made him lazy, well here I want to introduce and share knowledge and knowledge with many people in a more interesting way, with more emphasis on case studies, which will motivate people "in learning, because it will stimulate him to want to learn, because in the shadow he will be there ohhh want to make this, well this can be applied here, right? that ", then in making projects based on case studies can stimulate creativity and reason to develop and look for bugs and a high curiosity

PT Perkebunan Nusantara II / Internship Web Dev
June 2019 - Aug 2019, PT Perkebunan Nusantara II

At the time of the internship I made a system allows clients (employees) to reserve a meeting room in advance. Admins in the party are able to manage and monitor space reservations from an intuitive back-end system. The admin can add and display several rooms, process loans online and offline, developed using the framework framework 5.4

.
